## Preface.

---

We have pleasure in presenting this the fourth volume of Henderson's City of Edmonton Directory. The recent canvass of the city, necessary to the publication of this work, clearly indicates that the rapid growth and development which we have had to report in previous issues is of a permanent character and we have endeavored to faithfully chronicle this progress, believing that there is no better means of spreading information concerning a city, or of making known its commercial and social possibilities than through the medium of a thorough, up-to-date Directory. Such a work we have endeavored to make this present issue, which contains the addresses of 5848 citizens, and the addresses of 553 business firms, a total of 6401 addresses. From the business section of the book it will be noticed that many new business firms have located here during the year. We have again to extend our thanks to our clients for so marked an increase in the advertising patronage and for this expression of their growing faith in the necessity and usefulness of this publication, which becomes more and more each year an indispensable adjunct to the city's business machinery.

Yours Respectfully,

May 5th, 1908.

# City of Edmonton

(See also Strathcona)

Edmonton, the largest and most important city in Central Alberta, is beautifully situated on the high land on the north bank of the Saskatchewan River and 825 miles west of Winnipeg on the C. N. Ry. Population of Edmonton is approximately 18,500 which together with Strathcona is 23,000. Edmonton is the main wholesale distributing centre for Northern Alberta and the vast Peace River country which is fast being developed to the north, while to the west three great railroad systems are rushing to completion lines through the Yellowhead Pass to the Pacific Coast.

The Corporation owns and operates its own water service, sewage system, electric light and telephone systems. It also owns the street railway franchise having tracks laid on three of the principal streets.

Natural gas has recently been discovered at Morinville. This is being piped to the City and will be of great commercial value.

The City has thirteen banks, twenty-two hotels, two daily, five weekly and three monthly newspapers, four saw mills and planing mills, two flour mills, modern brewery, aerated water factory, a seven story packing and cold storage plant, woollen mill, woodenware factory, three steam laundries and two brick yards; also tent and mattress factory.

Most of the Eastern manufacturers are represented in the City either through commission brokers or with branch warehouses.

Edmonton being the capital of Alberta has the Alberta Provincial Government buildings. The new Government buildings are being erected at a cost of over \$1,250,000.

## CITY COUNCIL AND COMMITTEES, 1908.

Mayor—John A. McDougall.

Aldermen—R. J. Manson, Robert Lee, Wilfrid Gariepy, Cameron Anderson, Thomas Bellamy, Geo. S. Armstrong, H. L. McInnes, M.D., D. R. Fraser.

## STANDING COMMITTEES, 1908

Finance—Thomas Bellamy (chairman), H. L. McInnes, Robert Lee and W. Gariepy.

Gamewell Fire Alarm System, with 44 non-interfering street boxes.

R. W. Broder, Fire Dept. Electrician

### Fire Alarm System of Edmonton

#### To Ring An Alarm

Break the glass, turn the key and open outer door; there is a brass hook projecting from inner door, pull down the hook, once only, and let go. Failing to hear the fire bell immediately, go to nearest telephone and inform the central office where the fire is. Always remain or leave someone at the box until the firemen arrive.

62	No. 2 Fire Hall, Fourth
63	No. 3 Fire Hall, Kinistino

The box pulled will ring four distinct alarms, with an intermission of five seconds between each alarm.

The penalty for ringing in a false alarm is \$100.00.

### WATERWORKS DEPARTMENT

The water is supplied to the city through three pumps, 2 compound duplex pumps, one a Northey, with a capacity of 1,000,000 gals and the other an Ingles with a capacity of 1,500,000 gals per 24 hours.

A 3,000,000 gal., 4 stage motor driven Turbine pump, made in Manchester, England, by the Mather and Platt Co. Total capacity 5,500,000 gals per 24 hours.

The capacity of the boiler plant is 1300 H. P., 1000 H. P. Babcock and Wilcox, and 300 H. P. Robb, Munsford.

Capacity of the elevated steel tank, in the west end of the city is 60,000 gallons.

Present consumption is about 1,350,000 gals. per 24 hours.

Domestic pressure 40 lbs. on hill. Domestic pressure 100 lbs. on flats. Fire pressure 80 lbs. on hill. Fire pressure 150 lbs. on flats. If required with the installation of the new 3 million gallon pump a fire pressure of 120 lbs can be obtained in the city and 180 lbs. pressure on the Flats.

### CITY OF EDMONTON TELEPHONE SYSTEM

Offices and main exchange building, McDougall Ave. near Post Office

All equipment the latest type as made by Automatic Electric Co., Chicago with 10,000 capacity and 1,000 straight lines installed.

On outside work a combination pole carrying electric light wires at top and telephone cable lower down is used. There is approximately 4 miles of underground subway and 25 to 30 miles aerial cable. All distribution made in cable and construction of latest and most approved style. There is direct connection from all subscribers to all Government toll and rural lines together with proposed automatic direct connection to Strathcona subscribers after that exchange is completed by Government about July 1, 1908. Estimate total cost new exchange, \$15,000. Exchange building containing general office, superintendent's office and main exchange equipment all brick and concrete of latest type construction and is owned and operated by City of Edmonton.

### HEALTH DEPARTMENT

Medical Health Officer—T. H. Whitelaw, M.D.

Expenditure 1907 on revenue account.....\$422,177.62

### SYSTEM OF ASSESSMENT AND TAXATION

The system adopted in Edmonton is what is generally known as the Henry George or single tax system. By this method lands are taxed at a rate per foot frontage. Buildings or improvements on said land are not taxed.

All school and general taxes shall be levied as follows.

1 Lands; 2 Business Incomes; 3 Special Francises.

Lands are assessed at their actual value, buildings being exempt entirely.

Businesses assessed on floor space measurement, classified according to the nature of the business at a rate per square foot ranging from 25 cents to \$5.00 taxes being levied on the amount thus produced.

#### Assessment and Taxes

Year	Net Assessment	Total Taxes Levied	Rate Levied
1901	\$ 1,395,912	\$ 33,389.11	21½ mills
1902	1,724,420	37,252.58	19½ mills

## Preface.

---

We present this the initial number of Henderson's Strathcona City Directory, a work differing from any previous treatment of the City in that it contains not only the names of business men and firms, but also the names and addresses of private citizens as well. So far as the information is obtainable this gives the names of all persons making Strathcona their home, together with occupation, business and private address.

Our thanks are extended to our advertising patrons, the large list of whom shows the faith of the business men in this new enterprise and we are pleased that we can be of service in introducing so valuable a medium for the introduction of our patrons to their clients as well as advertising the resources of the city and district.

Yours respectfully,

May 5th, 1908.

HENDERSON'S DIRECTORIES, LTD.

# City of Strathcona

Incorporated as a City in 1907, situated at the terminus of the Calgary and Strathcona branch of the Canadian Pacific Railway 192 miles north of Calgary.

It is situated on the south bank of the Saskatchewan River 200 feet above the water.

The Twin City of Edmonton being situated on the north bank of the river two and a half miles away.

## Railways

Strathcona is the divisional point of the Canadian Pacific Railway having a pay roll of \$50,000 per month with prospects of a large increase in the near future. Last year the Company spent \$200,000 in improvements in the City and contemplate spending a like amount in the near future. The Company have yard room for 640 cars and in the busy season find that their yards are insufficient.

The Canadian Northern have access to the City and are contemplating connecting this City with their main line at Fort Saskatchewan.

## Situation

Strathcona is so situated that it is the natural gateway to the Great North Country which abounds in minerals of all kinds and will be the distributing point for that country.

To the south and east there is a wonderful agricultural country which produces splendid crops of wheat, oats and barley, the average yield for Central Alberta being, wheat 25 bushels, oats 60 bushels and barley 40 bushels per acre. Yields of 800 bushels of potatoes per acre are not uncommon.

All kinds of vegetables do well and are of first class quality as may be shown by the fact that the Strathcona exhibit took first prize at the Dominion Fair held in New Westminster in 1907. Ranch cattle do well and are a most profitable business, as are the raising of pork and dairying.

## Industries

The chief industries in the district are coal mining of which there are no less than 10 mines in active operation with an average output of 1,000 tons per day but with an unlimited supply in sight. This will be one of Strathcona's industries in the near future and an enormous source of profit to the district.

Among the other important industries in Strathcona are two large saw mills with a yearly cut of 20,000,000 feet of lumber and employing 175 men.

Three packing plants, three brick yards, an iron foundry, one brewery, one oat meal mill with a capacity of 200 barrels per day, one flour mill with a capacity of 150 barrels per day, four elevators with a capacity of 400,000 bushels.

The Northern Dredging Co. have a gold dredge on the river which cost \$50,000 and have a second on the cars at the station.

#### **Fire Protection**

The city has a very up-to-date fire fighting apparatus and have an almost unlimited supply of water from the City. The brigade consists of 20 volunteer firemen.

#### **Light**

The city owns and operates its own electric light plant, also its own water and sewer system. There is a new electric power plant said to be the best that money could produce and being up to date in every particular. Both light and power (motor) are furnished.

#### **Telephone System**

The city has just completed arrangements with the Alberta Government for the installation of one of the best automatic telephone systems in Canada with connections with all the government long distance phones in the province.

#### **Parks and Recreation Grounds**

The local agricultural society have a fine driving and athletic park in the suburbs which makes splendid recreation grounds in the summer besides which the City owns three parks, all of exceptional beauty.

The winter sports are provided for by an exceptionally good skating and curling rink

#### **Schools**

The city has two public and one separate schools with a very efficient staff of teachers and will be the educational city of the province when the university classes begin which will be when the \$65,000 Collegiate Institute is completed.

#### **Churches**

Seven religious denominations are represented in the city and the church buildings are a credit to any city twice the size.

#### **CITY OFFICIALS**

City Hall and Council Chamber in Odd Fellows Block, 3rd Ave. South cor. 1st Street West.

## **Caution!**

Deal only with well-known publishers when giving orders  
for Directory advertising.

Read all Orders carefully before signing, and do not sign  
duplicate "vouchers," as they are invariably used fraudulently.

Pay No Money in Advance. All well-known publishers in-  
struct their men to collect nothing prior to publication, and any  
attempt to collect needs immediate investigation.

**See that Your Order reads  
Henderson Directories.**

ISN'T true economy to weaken the force of your message  
he use of cheap business stationery.

Henderson Brothers' Printing is the least expensive printing  
can buy, but you wouldn't call it "cheap work." Viewed purely  
a business standpoint, Henderson Brothers' Printing  
investment. We would like to have you see our samples.
